SEAMLESS CERT COLLABORATION STARTS HERE

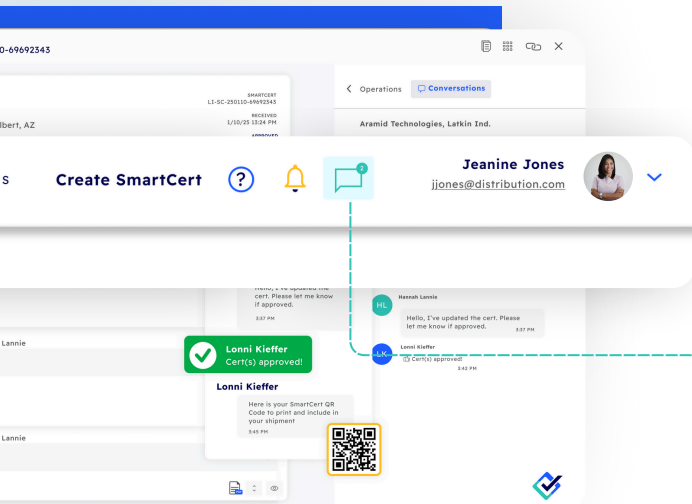

1 VIEW CERTS REQUESTS FROM BLUE ORIGIN

Certs requested by Blue Origin will be visible on your Requests Dashboard. Search by PO, Part Number, or other relevant data to locate the cert package for the shipment.

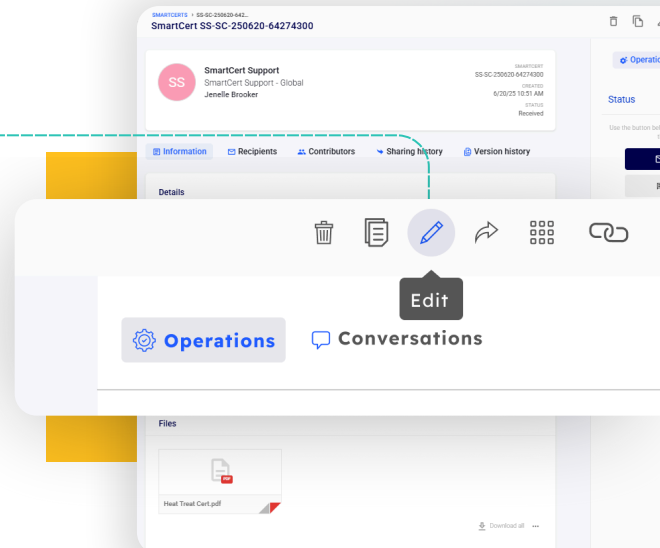

2 COLLABORATE IN REAL-TIME WITH THE BLUE ORIGIN TEAM

Open a SmartCert from the Chat history icon or directly from the dashboard to view the status and communication from Blue Origin.

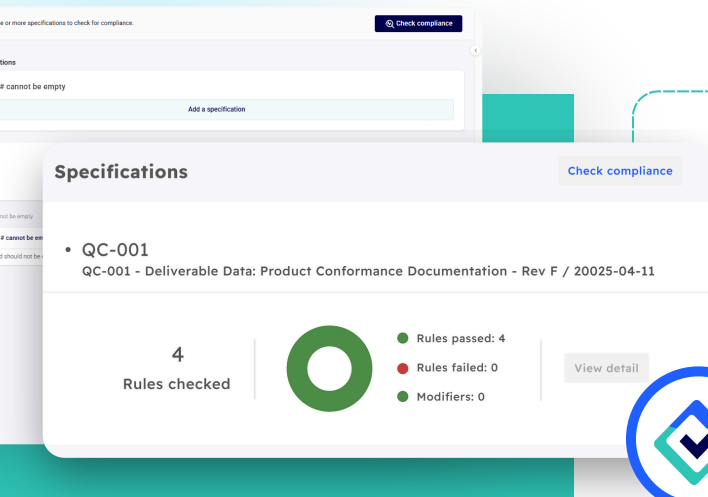

3 EDIT THE SMARTCERT TO MAKE UPDATES TO THE CERT PACKAGE

Add or replace certs in the Files section of the SmartCert, or enter data into the required fields. Click Save SmartCert once changes are complete. Updates will be sent to the Blue Origin team in real-time.

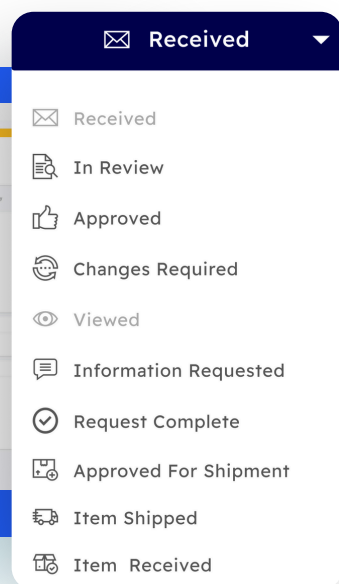

4 CHECK COMPLIANCE TO ENSURE ALL REQUIRED FIELDS AND DOCUMENTS ARE COMPLETED

Once you have uploaded your documents and entered data into the required fields, you can use the “Check Compliance” feature. This checks against the Blue Origin Quality Clauses and ensures no errors or missing documents.

LESS EMAILS, FEWER MISTAKES, FASTER COMPLIANCE.

5

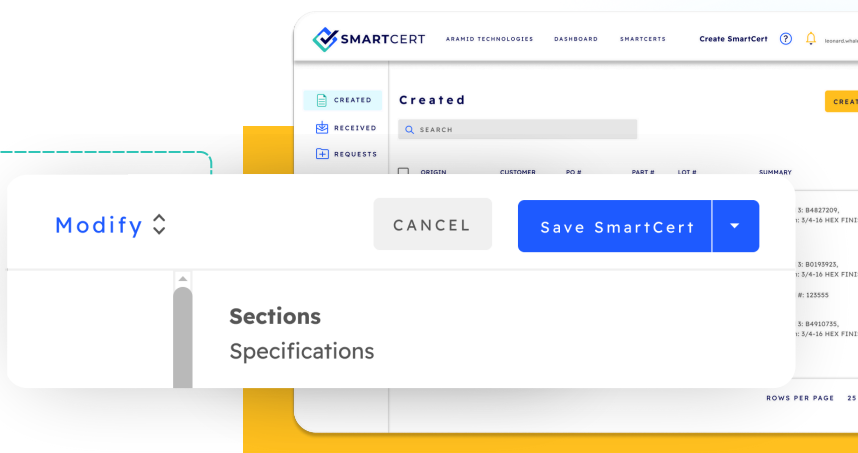

USE CERT STATUSES FOR COLLABORATION AND REVIEW WITH BLUE ORIGIN

Cert Statuses enable real-time communication and collaboration with the Blue Origin team. Once the requested documents and data have been completed, and compliance tests have been passed, change the Status to "Request Complete".

6

REMEMBER TO SAVE THE SMARTCERT AFTER YOU CHANGE THE STATUS

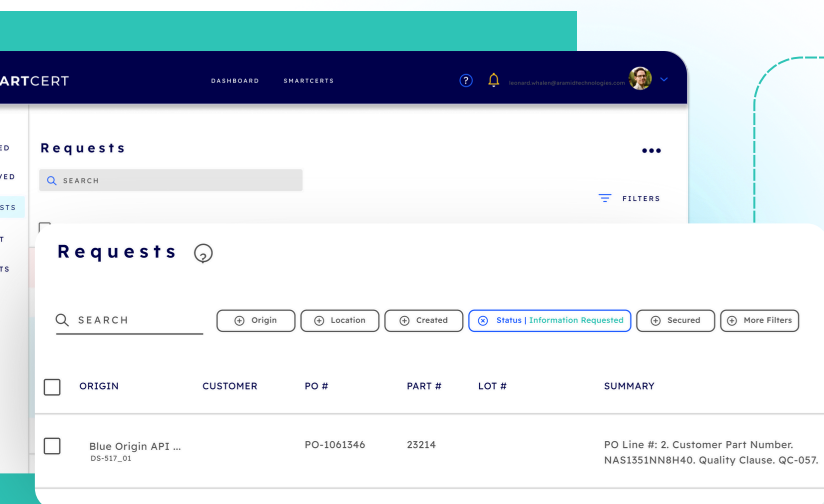

After updating the Status of a SmartCert, be sure to click "Save SmartCert" in the top right corner to apply your changes.

7

FILTER BY STATUS ON YOUR REQUESTS DASHBOARD

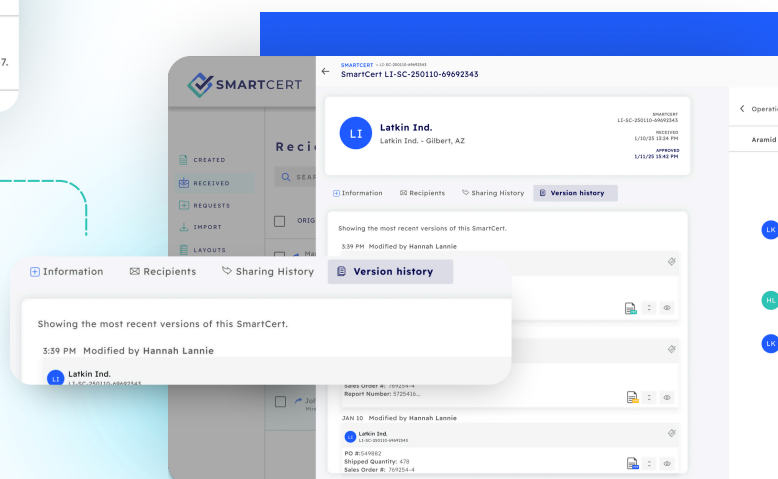

You can filter by Status on your Requests dashboard, allowing quick visibility into pending requests, and which requests have been approved for shipment.

8

VIEW VERSIONING HISTORY

Updates to cert packages will be shown on the Version history tab of the SmartCert, ensuring a full audit trail.
